# 2nd annual Big data multi-stakeholder forum

HMA EMA BDSG Recommendation: Deliver a sustainable platform to access and analyse healthcare data from across the EU – Data Analysis and Real World Interrogation Network – DARWIN EU

Achievements:
- Jun 2021: DARWIN EU tender launched (to select a coordination centre)
- Jul 2021: DARWIN EU Advisory Board established (incl. key stakeholder representatives)
- Nov/Dec 2021: on target for appointment of Coordination centre (CC) in early 2022

Future highlights:
- DARWIN EU Coordination centre appointed (early 2022)
- Start conducting studies for decision making
- DARWIN EU pilot with EHDS
- Report on first year of operation
- EU regulatory network routine access to RWE (training, processes, catalogues of studies and data sources)

Benefits:
- Supports better medicines for patients
- High quality real world evidence supports development, authorisation and supervision of medicines
- Network of data and expertise for Europe
- Wide range of data types from across the EU
- Standard analyses for fast results
- Support decision making by EMA and NCA committees
- Support decisions beyond regulations e.g. HTA/payers
- Connection to and 'pathfinder' for the EHDS

How to engage with the ongoing activities:
- DARWIN EU Advisory Board
- Follow DARWIN EU webpage - DARWIN EU
- Stakeholder fora will be organised to inform and discuss
